

Welcome to Modern, State-of-the-Art Dentistry! In a Clean, Beautiful and New Dental Office.

A Chicago practice started in 1941 and has always been a leader in new dental technology. Dr. Wilbert Gordon and Dr. Theodore Gordon were leaders in Dentistry and Dental Education. This practice was and will always be at the forefront in the expansion of New Technology in Dentistry.

- ❖ **Sapphire Laser -- 1 Hour -- In-Office teeth bleaching** and home whitening combination systems – for fantastic results!
- ❖ **PerioProtect Method – a set of easy to wear soft rubber mouth trays** that significantly reduce gumline problems
- ❖ **ZAP Laser** which can be used for treatment of gum irritations – Very conservative dental procedures with faster healing than prior treatment methods Also the ability to treat *painlessly* Cold Sores and Canker Sores (often without “novocaine”).
- ❖ **Pro-Select – Piezo Scaler** – which allows our Hygienist to more thoroughly clean teeth, medicate gums and protect teeth with a warm fluoride treatment – This device works especially well with patients who have gum recession / gum disease.
- ❖ **Medical Sterilization and Constant Monitoring** system – for clean, sterile instruments.
- ❖ **DIAGNOdent** – Laser Decay detector, which can accurately locate decay, often years before it might be visible on x-ray.
- ❖ **Decay Detecting Stain (Red Color)** – to visually show us *exactly* where the cavity is located and the extent of the decay, thereby eliminating the reduction of sound, non-decayed tooth surface.
- ❖ **Self-contained water filtration system used in combination with a clean water distribution system to dispense clean filtered water through our dental handpieces — no city or contaminated water! Fewer than 5% of dental offices worldwide have this dual system.**
- ❖ **Dental video imaging system** with increased, up to 50 times, magnification, Computer screen and photographic printer allows better diagnostics—without x-ray—and allows patient viewing of their dental condition.
- ❖ **Digital Radiograph (X-Ray) and Digital Panoramic (outside of the mouth comfortable full mouth X-Ray)**
- ❖ **Halogen Lighted Handpieces** give us significantly better visualization of posterior (back) teeth.
- ❖ **High-Speed Electric Handpiece** enables us to perform dentistry much faster with significantly less Noise and Vibration.
- ❖ **Custom made: Inlays, Onlays, Crowns, and Bridges (all performed and placed quickly)** – State-of-the-Art Laboratory – located nearby - allows for Custom Blended colors and shades for more exact esthetic restorations.
- ❖ **Efficient Bonding Equipment and Materials** - allow us to place Cosmetic Fillings and Restorations and to work quickly and accurately – we respect your busy schedule.
- ❖ **Over 90% success rate to treat** and significantly reduce breath problems in patients utilizing a System of Toothpaste, Mouth Rinse and Tongue Cleaning.
- ❖ **N T I Bite Appliance** – Migraine Headache reducing guards, constructed In-Office, in under 1 hour.
- ❖ **Advanced Computer System** – for fast generation of Dental Insurance Claims, so that you are reimbursed quickly from your Dental Insurance Carrier.
- ❖ **Prophy Pencil Technology** – to assist in cleaning heavily stained teeth with no discomfort.
- ❖ **Snore Reducing Guards** treat a majority of snoring problems (clinically shown to be more successful than surgery!) and are constructed In-Office in less than 1 hour.
- ❖ **In-Office Placement of Mini-Dental Implants, may be used to increase Denture / Partial retention, Single Crowns / Caps, Provisional Bridges (NON surgical dental implants)**
- ❖ **TAP Sleep-Apnea reducing guards – for Patients with sleep apnea – it often reduces the need for the C-Pap Machine**
- ❖ **Television with wireless headphones for your comfort and distraction**

****OUR DENTAL TEAM HAS MANY YEARS OF EXPERIENCE****

Dr. Stephen Gordon has been in practice for almost 30 years. He has lectured extensively on restorative and cosmetic dental procedures. Dr. Gordon has vast experience in all phases of restorative dentistry, including implants, cosmetic bonding and teeth laminating. Dr. Gordon has designed and built a state-of-the-art dental office overlooking Millennium Park.

Patty—Our Senior Dental Assistant—has a career in Dentistry spanning 20 + years. She is our sterilization manager and Teeth Whitening Expert. Patty has extensive experience in dental office sterilization, monitoring and disinfection of the dental treatment room. She knows the newest techniques in successful teeth whitening procedures. Patty is well versed in new, innovative dental techniques. She has additional medically related training. She knows every aspect of dentistry!

Kyle—Our Senior Dental Hygienist—has over 30 years experience in our office. She has developed and monitors a computerized dental recall system, which accurately tracks patient teeth cleaning appointments. Kyle's knowledge is up-to-date regarding oral hygiene and homecare products!

Sheri—Our office manager—has many years of dental office management experience. She knows all phases of insurance handling and manages our computerized record system.

Our Team is here for Your Dental Needs!
